

 Sirvoy

*For Education*

Sirvoy is an ideal front desk system for hospitality coursework in schools and training centers. Its simplicity and comprehensiveness provide a perfect foundation for hospitality curriculums, and students benefit from first-hand experience with a leading system used by thousands of hotels worldwide.

## How Students Use Sirvoy

Students will feel like they're running their own hotel by:

- Making bookings
- Checking in and out guests
- Practicing payments
- Creating invoices
- Building websites
- And much more

Students can "build" a hotel, or the teacher can prepare a fictitious one for them ahead of time.

## How Sirvoy Equips Teachers

Our packages prepare teachers by familiarizing them with the system. Each one comes with an hour-long walkthrough by a support agent. In addition, all Sirvoy users have access to our ever-expanding knowledge base of support articles, guides, videos, and more.

Teachers will never be at a loss with our ongoing support.
